DATTATREYA INC.

Natural Ski Resort

Today more than **1,800 customers in almost 50 countries** trust in the expertise and years of experience of TechnoAlpin. The company offers, guaranteed coverage of snow of the best quality, not only on Alpine slopes but also on cross-country trails, ski jumps and toboggan runs.

TechnoAlpin regular customers include the best-known destinations all over the world as well as World Cup venues and small family ski resorts. TechnoAlpin is the official product partner of the **International Ski Federation (FIS)** and of the **Paralympic Committee** and official supplier to the **umbrella association of Swiss winter sports, Swiss-Ski**, and to the **German Ski Association (DSV)**.

Today, therefore, TechnoAlpin offers a full project management service encompassing all the phases involved in providing a snow-making system, from planning and installation right through to after-sales service. A wide range of different fan guns and snow lances and the use of custom control software enable the development of **individual turnkey solutions**. By selecting the right snow gun and making the necessary adaptations to suit the terrain and infrastructure, while taking account of a wide and diverse range of given factors and conditions, TechnoAlpin can guarantee optimum use of the available resources.

TechnoAlpin is convinced that a perfectly coordinated design is the foundation for **energy-efficient snowmaking operations**. The specific requirements are identified with the relevant ski resort in order to tailor the design accordingly and provide a system of the correct dimension. The aim is always to provide **basic snow coverage** in order to best exploit windows of opportunity for snow production and to optimize the **use of available resources**.

TechnoAlpin supplies a broad range of fan guns and snow lances on various applications. When planning the system, it is therefore possible to select the optimum snow gun for the terrain and geographical conditions.

For Live videos, we request you to visit there website <https://www.technoalpin.com/en/about-us/films.html>

We at **Dattatreya Inc** are proud to associate with TechnoAlpin to launch Ground Breaking Technology in India. Please contact us to address your issues of Pollution due to Organic compound in Gas or Liquid.

Thanking you & look forward for your specific site parameters to enable us to assist in the design & propose specific system. .
